

Are You Prepared?

Barbara Formica

December 2010

If recent history doesn't make you think about your current state of affairs I don't know what will. So many people are still out of work. Many of these people thought they were secure in their jobs and now they have been out of a job for 12 to 18 months.

I am also reminded of a story of a gentleman who was self employed and one day found himself and his wife unable to work due to an accident. Now I am sure he has insurance to take care of the doctor bills and hopefully insurance to help out with the day to day expenses. BUT, the one thing that he didn't have covered was who will keep his business going? Thankfully he had a friend who is helping out but for how long? For those of you who are self employed or an independent contractor have you thought about what would happen if you couldn't work for a lengthy period of time?

It makes you think...what if???

Not too long ago we were in a similar situation. My husband, a pilot, lost his job. Now who would have thought that the airline industry would crumble? He was well trained as a pilot but what else was he to do. He had to reinvent himself until he could find another pilot job. He dabbled in a couple of different things but flying was his passion, his love. It took him quite a while to find a flying job and thankfully he did but it was a very scary time for us. We had just bought our first home and were thinking of starting a family.

Today the airline industry still has not fully recovered. Many other industries are having trouble as well. None of us thought it would take this long to come back. I thought we would bounce back in 6 months or so. Who knew it would be years. How long can we hang on?

I'm not sure about you but I hate uncertainty. That's why I decided to do something about it. The year is coming to a close and this is a perfect time to start thinking of a Plan B. Something you can do today that will bring in an extra stream of income and will continue to do so even if you stopped working, or something to help you get through the hard times until we fully recover. I am here to tell you of a great opportunity that I came across that can do just this. This plan can bring in residual income of \$500, \$1,000, or \$5,000 a month. I am looking to expand my business and partner up with energetic, goal driven people. I would love to help anyone in need. I will help you achieve your goal in 90 days or less. In addition to the income benefits you also get lifestyle benefits like Cars and Luxury trips. I'm looking forward to taking my family to the Atlantis Resort for an all expenses paid vacation next November and working towards bringing the husband to Bora Bora all expenses paid for a well deserved break from the kids. And I can't forget about the new car I get to pick out come August.

This may not be for you but it may be for someone you may know so I would appreciate it if you would forward it along. If something did peak your interests call me so we can talk-breakfast or lunch is on me. I love what I do and I would love to help someone else get what they deserve in life. Whatever your Dream, I can help you make it a reality, call me.
