

Healthy Recommendations ...

Barbara Herd
March 2010

One of the things I love about my business is the many positive stories that come in from our customers, after using our products. Here are just a few from my customers that I'd like to share:

Rosacea: "For one month I have been taking the Vitality 4 vitamins, twice/day, and have been using the Timeless Age Defying Serum – and my Rosacea is gone. Over the last couple of years the Rosacea on my cheeks was getting worse and a dermatologist suggested that I get three laser treatments costing in total of \$1000. which would not be covered by insurance. I was considering it but decided to try these two products and in one month, the Rosacea is essentially gone! I'm so happy my complexion is clear again and the cost was minimal. Thank you for educating me on these products."

Dry Skin: "I have had very dry skin on my feet and legs. Yes, I have used other skin creams which worked temporarily – the dryness has always returned. After using Renew for only three days, my skin is soft and the dry patches have not returned. Wow! Am I impressed – what a wonderful product!"

Energy: "I had been a Centrum vitamin taker for about 10 years. After two weeks of taking Oligo, I immediately started feeling a difference in my energy, especially around 3 or 4 in the afternoon. My energy levels have increased when normally I'm very tired and worn down. In the morning, even if I have not gone to bed until midnight and wake up at 6 am, I feel rested and ready to get up for my day. I will always take these vitamins because I feel that much of a difference and that much better."

Stain Remover: "When Barb first came to talk to me about her company, she mentioned a 3-way product that cleans, deodorizes, and serves as a cleaning booster. She also mentioned that this would remove permanent marker off of a photograph, without damaging the photo at all (!) I had an old antique bowl from my mother that had a terrible permanent marker on it. I had tried everything to remove it, without success. I took a small amount of her Sol-u-Mel home to try, and BAM! – gone – I couldn't believe my eyes. I have since bought this and used it on other marks and stains and can honestly say, it WORKS!"

All of our products are safer for your home, your family and the environment. They come with a 60 day money back guarantee, even if you used them all up! (Our vitamins come with a 90 day challenge: Try them for 90 days and if you don't agree that these are the best vitamins you've ever taken, we'll give you your money back - no questions asked). And in this economy, it's good to know that our prices are competitive with Target and Wal-Mart.
