

# Energy Savings

Bob Kudlek  
April 2011

An incredible economic boom shook the telecommunications industry following its deregulation in 1984. Hundreds of new companies entered the telecom market and created hundreds of billions of dollars in new revenue for visionary entrepreneurs who saw the changing landscape and were willing to venture into new waters.

Today an even larger industry is on the cusp of sweeping change. Energy.

All across America, state governments are evaluating the impact of deregulating their energy utility monopolies to provide their citizens with greater choice, lower prices and more innovative products. Several states now allow competition. Texas was an early leader. New York is now deregulated, as is Illinois, Maryland and Pennsylvania. Other states continue to follow. And consumers are rushing to better choices and lower prices.

The Idea behind Energy De-regulation was to create more efficient ways of creating energy , creating more efficient systems to accurately track and bill customers usage ,and to encourage new companies to pursue alternative sources of Green Energy. For 100 years our incumbent companies such as Con Ed , National Grid never had competition so they never bothered to change. That's all changing now thanks to Monopolies being broken up.

Ambit Energy is an ESCO(Energy Service Company ) Licensed with the Public utilities commission of NY, TX , MD, Ill, and PA as an Alternative Energy supplier. Consumers can upgrade their accounts to Ambit at no cost. Nothing changes as Ambit will be listed on your current bill from either National Grid or Con Ed. No change in service, National Grid and Con Ed still take care of all your Billing, Meter readings and emergency care. There are no contracts or commitments to our service. Ambit Energy is only the supplier of gas, where National Grid or Con Ed buys their energy from.

Customers who choose Ambit Energy receive Guaranteed Savings Every month, reward points every month for using their Natural Gas or Electricity, and the chance to earn a Free Energy credit every month by referring friends or family.
