

Arbonne's Body Cleanse

Linda Levine
August 2009

Well, its bathing suit season and EVERYONE wants to look sexy and slim in their bathing suit! Sometimes, its difficult taking off those extra

pounds; and no matter what you DON'T eat, the weight just doesn't seem to want to come off. But, there is a secret that you may not know, and I will share it with you....

If you cleanse and detoxify your body, internally, weight that wouldn't budge might just melt away. When I found that out, it just seemed so easy.

Arbonne manufactures a 7-day body cleanse. The cleansing beverage of detoxifying marine botanicals stimulates, strengthens and supports health from the inside out. This product assists by flushing out excess fluids. The milk thistle helps to protect and improve the function of the liver. The marine botanicals provide beneficial vitamins, minerals and antioxidant support to protect cells from the harmful effects of free radicals.

My philosophy has always been that I won't recommend anything that I haven't personally tried. The prospect of trying this was not on my top 10 list of things to do. I had visions of stomach cramps, running to the bathroom, etc. But, know what? That just didn't happen. No cramps, no running! The Body Cleanse was really gentle, and it cleansed and detoxified by body. Oh! I almost forgot... it tasted fine, too.
