

Need Help with your New Year's Resolutions?

Barbara Herd
January 2011

If you're like many of us, the beginning of the New Year is a time of reflection. We look back at what went well over the past year, and what we'd like to change. Inevitably, we make a few "New Year's Resolutions". Things like losing weight, getting in better health, getting more organized, and bringing in some extra income or getting a better job, are common resolutions. While I can't help you much with the "getting more organized" one, I can help you with the others.

In my business, I help people **improve their health**, save money on their grocery bills, get a better **balance** in their lives, and earn **extra income** to help fund *retirement, college expenses*, pay off *debt*, or just be able to "*loosen their belts*" in a tight economy. If that sounds like a lot of things to offer, it **IS**. And it's one of the reasons why I am so passionate about what I do – because I love helping other people in any - and all of these ways.

I would imagine you've heard a lot of promises made and outlandish claims from some others in the networking world. I have too. There are a lot of "look alikes" out there, but I haven't found one that can deliver the same **quality, value and opportunity** like ours:

- 25 years of business
- Better Business Bureau's Hall of Fame
- Inc. Magazine Hall of Fame
- **Competitive Pricing**
- **HIGH Reorder rate** (95% monthly re-order rate – creating a true residual income)
- Unique consumable products with broad market appeal
- Consumer Direct Marketing business model – no one else has it
- Consumer driven business – not a recruitment driven business
- An almost \$1 billion company that has grown steadily every single year

You may still be skeptical, and that's understandable. I was too. Now I love sharing this with others, and watching their faces when they go through our company overview, as they realize how different and real this opportunity IS! If one of your New Year's Resolutions it to get better health, reduce costs, or add another stream of reliable income, you may have just found a way to do that. Why not call me for coffee? I'd love to help.
